ETAGE

The Etage meeting table has a soft design and offers innovative possibilities to switch things up. In colleges and universities, this table is a natural gathering point, in an office landscape, it's an inspiring meeting space and at an airport, it's a practical touch down for working or charging one's mobile. The table is available in several sizes, heights and finishes and can be supplemented with a variety of decorative accessories that make life simpler and enhance its functionality. The quilted fabric desktop screen has sound-absorbing properties and serves as a screen. In addition, the quilted fabric is in harmony with selected Colours by Materia (CbM) colours. The raised shelves create practical storage areas and make this place to meet lively and inviting. The tubular arch is excellent for hanging plants or lamps. The table top comes in oak veneer or beige HPL laminate and for certain sizes, the two can be combined. The oval power/USB sockets match the design of the table. The legs and metal components are available in any CbM colour, making it easy to adapt to different colour schemes.

*CbM = beige, mustard yellow, dusty pink, rusty red, burgundy red, blue grey, green, grey, dark grey, black, white
